Elizabeth "Betsy" Gelenitis Alison

March 25, 1960 -  
Birthplace: Bayonne, New Jersey

***“I've never been afraid to ask questions.”***

Betsy Alison started sailing at age 7 because her father insisted. Grumpy at first, soon Betsy was singing with her pals as they slipped happily over Barnegat Bay. She was successful as a local sailor, but turning it into a life dream, or a profession, never occurred to her. Then in 1977 she found herself at Tufts University, which just happened to have the best sailing team in the country. When her father died during her freshman year, a friend persuaded her to go sailing on Upper Mystic Lake. For the first time Alison realized her natural aptitude for the sport.
